Workafella, Teyanampet, Chennai.

Network Engineer

As a dedicated Network Engineer and IT Support Specialist at a bustling coworking space, I possess extensive experience and expertise in managing and maintaining crucial network infrastructure. My primary responsibilities revolve around administering firewalls, configuring Cisco switches, overseeing access control systems, managing printer configurations, and providing hands-on desktop support.

Key Responsibilities:
- Proficiently administer and maintain firewall systems to ensure network security and data integrity.
- Configure, manage, and troubleshoot Cisco switches to optimize network performance and efficiency.
- Oversee and manage access control systems, ensuring secure and controlled access to the premises.
- Expertly configure and maintain printer setups, ensuring smooth printing operations for all users.
- Provide efficient desktop support to resolve technical issues and ensure seamless operation of workstations.
- Implement network upgrades, updates, and patches to keep the infrastructure current and secure.
- Maintain documentation of network configurations, changes, and incidents to facilitate troubleshooting and future improvements.
- Offer timely and effective technical assistance to coworkers, addressing their IT concerns and enhancing their productivity.
